

2007 Mission Accomplished,
Rancho Tepusquet Vineyard
Santa Maria Valley

The Mission Grape dates back to the 16th Century in California, when the Spanish padres brought cuttings along to plant around their missions. It is a pink/red thin skinned grape with large, loose clusters. The grapes for this "Port- styled" wine come from vines planted at the original Rancho Tepusquet in Northern Santa Barbara County during the 1950's. The fermentation was arrested with 170 proof grape brandy, leaving a residual sugar at 7.0% and 17.7% alcohol. This is a petite, delicate dessert wine to pair with summer red fruits and/or milk chocolate.

Winemaker's Notes:

A delicious, delicate dessert wine, light bodied(not clingy) and full of raspberry liqueur(framboise) and milk chocolate. This may even be a good summertime aperitif, poured over crushed ice. Also a great cigar wine.-Bill Wathen

Production: 100 Cases (375ml)
Suggested Retail: \$30.00
